

## Airfence advertising agreement.

I \_\_\_\_\_ (“client”) agree to pay \$ \_\_\_\_\_ to the Oregon Motorcycle Road Racing Association (“OMRRA”). In exchange I shall have the right to submit an image to be displayed in a \_\_X\_\_ sized advertisement space. The image shall be one print layer and one color.

If I desire an image printed in additional colors or with additional print layers I shall pay \$ \_\_\_\_\_ per color / layer up to the maximum that can be printed which is \_\_\_\_\_.

It is my responsibility to submit my art work or proposal for art work to the graphic designer. I agree to provide OMRRA’s graphic designer with any needed images or information so that the advertisement image can be created to my specifications. A total of \_\_\_ hours of graphic design services are included with this contract. If my chosen design requires more than that amount of graphic design service I must contract separately with a graphic designer of my choice.

OMRRA agrees that the advertisement will be located trackside at all OMRRA racing events for the duration of this contract. OMRRA agrees to maintain said advertisement so that the image is in reasonable condition. If, in the exercise of OMRRA’s judgment the advertisement becomes weathered or damaged to an unacceptable extent during the term of this contract OMRRA will have a new copy of the advertisement printed at its own expense.

OMRRA shall not be responsible for creative or design input into the advertisement. OMRRA will, at the client’s request, provide input and suggestions to said client or graphic designer based upon OMRRA’s experience and opinions of what advertisements are effective and easily read.

The term of this agreement is two years beginning on the day the advertisement is first displayed at a racing event.

The agreement can be renewed for a second two year period at client’s choice. OMRRA will provide the new rate to client at least six months before the expiration of the agreement term.

If the client chooses not to renew there contract after the conclusion of this one all materials become the property of OMRRA.
